Email: carolfb@adhb.govt.nz
              bcaudwell@adhb.govt.nz
INSTRUCTIONS FOR COMPLETING CASE REPORT FORMS (CRF)

Write clearly using a black pen.

1. **Errors**: Do not use correction fluid or other masking agents. Instead draw a single line through the error and write your initials and the date next to the correction.

2. **Missing Data**: Please complete all items on case report forms. Use the following codes for missing data:

   - ND = not done
   - NA = not applicable

3. **Tick Boxes**: Please indicate choice of tick box as follows: ☐  →  ☑️

4. **Patient Initials**: Whenever possible, please record three-character patient initials at randomisation. If the patient does not have a middle initial, utilise the format X-X, putting a dash in place of the middle initial.

5. **Patient ID numbers**: The RAVES randomisation system generates patient ID numbers that vary from 4 to 7 digits. The last three digits correspond to the sequence of the patient at your site. The first 1-4 digits correspond to your site code, and will be the same for all your patients. If your patient ID number is less than 7 digits, please put a dash through the extra boxes.

   **Examples:**

   - 1234001: First patient recruited at site with 4 digit code (1234)
   - -2001: First patient recruited at site with 1 digit code (2)

INSTRUCTIONS FOR SUBMITTING COMPLETED CASE REPORT FORMS

The originals of all completed case report forms and quality of life (QOL) questionnaires must be sent to the Coordinating Trial Centre at the address below:

RAVES Clinical Trial Centre Manager  
Adult Oncology Research Centre  
Auckland Hospital  
PO Box 92024  
Auckland 1142  
New Zealand

The original signed Consent Form and a photocopy of all completed case report forms and patient questionnaires should be retained by the treating institution.

## To Randomise a Patient

1. Before completing any pre-randomisation forms, check that the patient consent form is signed and dated by the patient and investigator.
2. Check that the eligibility criteria have been satisfied.
3. Complete the Pre-Randomisation Patient Assessment [A1], Pre-Randomisation Patient Questionnaires [A2], and the Randomisation form [A3].
4. Log onto randomisation website [https://www.ctru.auckland.ac.nz/raves](https://www.ctru.auckland.ac.nz/raves) and follow instructions.
5. Eligible patients will be randomised to either Arm 1 (adjuvant radiotherapy) or Arm 2 (salvage radiotherapy).
6. Print out or save the screen that displays the randomisation result for your files as the system will not generate a separate confirmation page.
7. Complete the randomisation details on page 2 of form [A3].
8. Enter the randomisation number at the top of each page of forms [A1 - A3].
9. Make copies of these forms for your site, and mail the original pages [A1 - A3] to the Coordinating Trial Centre.

**ONCE ONLY FORMS**

- Radiotherapy Treatment Summary: To be completed after treatment. [T]
- Central pathology review: Post-Randomisation [P]

**Optional: RAVES Genetic Study**
- (sputum collection & questionnaire): Biological Sub-studies [D]: To document patient decision regarding biological sub-studies (recommended at 6 months post-randomisation)

**Optional: RAVES Tissue Banking Study**
- (donation of tumour block): Biological Sub-studies [D]: To document patient decision regarding biological sub-studies (recommended at 6 months post-randomisation)

* To be done prior to PSA result being revealed to patient.
### Schedule of Assessments: Arm 2 (SRT)

#### Time Point | Assessment | Pre-Randomisation | 3 monthly to end of trial relative to randomisation | Annually to end of trial relative to randomisation | IF SRT required**
--- | --- | --- | --- | --- | ---
**Randomisation**

- Randomisation data and stratification factors
  - [A3]

- Medical history physical exam
  - [A1]

- ECOG performance status
  - [A3]

- Co-morbidity index
  - [A1]

**Randomisation Follow-up**

- PSA
  - [A3] [B1] [B1] [B1] [C3]

- Clinic visit
  - [A1] [B1] [C4] [C1] [C2] [C3]

- Adverse events
  - [A1] [C4] [C1] [C2] [C3]

- EORTC Quality of Life

- HADS anxiety/ depression
  - [A2] [C4Q*] [C1Q] [C2Q] [C3Q*]

- SHIM: Sexual Health Inventory for Men
  - [A2] [C4Q*]

- Health Resource Use Questionnaire
  - [C4Q]

#### Once only

- Radiotherapy Treatment Summary
  - To be completed after treatment. [T]

- Central pathology review
  - Post-Randomisation [P]

**Optional: RAVES Genetic Study (sputum collection & questionnaire)**

- Biological Sub-studies [D]: To document patient decision regarding biological sub-studies (recommended at 6 months post-randomisation)

**Optional: RAVES Tissue Banking Study (donation of tumour block)**

- Biological Sub-studies [D]: To document patient decision regarding biological sub-studies (recommended at 6 months post-randomisation)

---

* To be done prior to PSA result being revealed to patient.

** If SRT is required, the patient crosses over to the Arm 1 schedule and forms.

---

Please return original completed forms to: RAVES Trial Centre Manager, Cancer and Blood Research, Auckland Hospital PO BOX 92024, Auckland, NZ
### Pre-Randomisation Patient Assessment  
**[A1] (p. 1 of 4)**

| TROG 08.03  
Radiotherapy  
Adjuvant Versus  
Early Salvage  
(RAVES study) | Patient  
Initials | Reg  
Number | Pre-Randomisation Patient  
Assessment  
(A1) (p. 1 of 4) |
|---|---|---|---|

The following assessments are required **prior to randomisation** and **after consent is given**:

- Patient information ([A1] page 1)
- Co-morbidities index ([A1] page 2)
- Adverse Events ([A1] pages 3 and 4)
- Patient questionnaires: EORTC QoL, HADS, SHIM (form [A2] pages 1-7)

#### Patient information

<table>
<thead>
<tr>
<th>Clinic visit date (ddmmyy)</th>
<th>Patient’s weight (kg)</th>
<th>Patient’s height (cm)</th>
</tr>
</thead>
</table>

#### Ethnicity

Please ask the patient to select the ethnicity which best describes them from the list below. Enter the corresponding number in the box.

1. Caucasian
2. Asian (specify): ______________________
3. Maori
4. Samoan
5. Tongan
6. Other Pacific Island (specify): ______________________
7. Australian Aborigine
8. Torres Strait Islander
9. Other (specify): ______________________
10. Multiple (specify): ______________________

#### Trial Schedule Reminder

<table>
<thead>
<tr>
<th>If your patient is randomised to:</th>
<th>The next clinic visit is due: AND</th>
<th>The next PSA is due:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Adjuvant RT (Arm 1)</td>
<td>Day 1 of RT</td>
<td>6 weeks post-RT</td>
</tr>
<tr>
<td>Salvage RT (Arm 2)</td>
<td>6 months from randomisation</td>
<td>3 months from randomisation</td>
</tr>
</tbody>
</table>

**For all patients:** Central pathology review is required. Refer to the Protocol and CRF Form P for details.

---

Please return original completed forms to: RAVES Trial Centre Manager, Cancer and Blood Research, Auckland Hospital PO BOX 92024, Auckland, NZ

CRF Version 4.1: 25 February 2016

Admin Page 6
Co-morbidity Index

Does the patient currently have, or have a history of, any of the following conditions:

- Myocardial infarction
- Heart failure
- Angina, intermittent claudication, or abdominal aortic aneurysm
- Other malignancies (except basal skin carcinoma)
- Peptic ulcer disease (medically or surgically treated, but not reflux)
- Cerebrovascular accident (stroke) or Transient Ischaemic Attacks
- Diabetes mellitus (medically treated)
- Chronic obstructive pulmonary diseases
- Dementia
- Connective tissue/autoimmune diseases (for example: Sarcoid, systemic lupus erythematosus, Wegener’s granulomatosis, rheumatoid)
- Liver disease (any LFT > 1.5 times normal)
- Kidney diseases (renal function > 1.5 times normal)
- Bowel diseases: Crohn’s disease, ulcerative colitis
- Hypertension (or on anti-hypertensive therapy)
- Hypercholesterolaemia (or using cholesterol lowering agents)

Number of other current and past medical diagnoses requiring regular monitoring or medication:

Number of recommended or prescribed medications taken regularly (excluding complementary medicines):
Please enter the grade of current symptoms in the box. Enter ND if not done.
All AEs are scored using CTCAE v.3.0.

### Adverse Events: Genitourinary

#### Cystitis

- **0** = None
- **1** = Asymptomatic
- **2** = Frequency with dysuria; macroscopic haematuria
- **3** = Transfusion; IV pain medications; bladder irrigation indicated
- **4** = Catastrophic bleeding; major non-elective intervention indicated

- **Tick if not assessable**
- 

#### Urethral Stricture/ Stenosis

- **0** = None
- **1** = Asymptomatic, radiographic or endoscopic findings only
- **2** = Symptomatic but no hydronephrosis, sepsis, or renal dysfunction; dilation or endoscopic repair or stent placement indicated
- **3** = Symptomatic and altered organ function (e.g., sepsis, hydronephrosis, or renal dysfunction); operative intervention indicated
- **4** = Life-threatening consequences; organ failure or operative intervention requiring organ resection indicated

- **Tick if not assessable**
- 

#### Urinary Incontinence

- **0** = None
- **1** = Occasional (e.g., with coughing, sneezing, etc., pads not indicated)
- **2** = Spontaneous, pads indicated
- **3** = Interfering with ADL; intervention indicated (e.g., clamp, collagen injections)
- **4** = Operative intervention indicated (e.g., cystectomy or permanent urinary diversion)

- **Tick if not assessable**
- 

#### Urinary Retention

- **0** = None
- **1** = Hesitancy or dribbling, no significant residual urine; retention occurring during the immediate postoperative period
- **2** = Hesitancy requiring medication; or operative bladder atony requiring indwelling catheter beyond immediate postoperative period but for less than 6 weeks
- **3** = More than daily catheterization indicated; urological intervention indicated (e.g., TURP, suprapubic tube, urethrotomy)
- **4** = Life-threatening consequences; organ failure (e.g., bladder rupture); operative intervention requiring organ resection indicated

- **Tick if not assessable**
- 

#### Urinary Frequency/ Urgency

- **0** = None
- **1** = Increase in frequency or nocturia up to 2 x normal, enuresis
- **2** = Increase > 2 x normal, but less than hourly
- **3** = once per hour; urgency or catheter indicated

- **Tick if not assessable**
- 

#### Haemorrhage, GU

- **0** = None
- **1** = Minimal or microscopic bleeding, intervention not indicated
- **2** = Gross bleeding, medical intervention or urinary tract irrigation indicated
- **3** = Transfusion, interventional radiology, endoscopic, or operative intervention indicated; radiation therapy (i.e. haemostasis of bleeding site)
- **4** = Life threatening consequences; major urgent intervention indicated

- **Tick if not assessable**
- 

*Continued on next page*
Please enter the grade of current symptoms in the box. Enter ND if not done and tick NA if not assessable. All AEs are scored using CTCAE v.3.0.

### Adverse Events: Gastrointestinal

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>

☐ Tick if not assessable  
Reason: ____________________________

### Adverse Events: Sexual Function

### Erectile Dysfunction

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>None</td>
</tr>
<tr>
<td>1</td>
<td>Decrease in erectile function (frequency/ rigidity of erections) but erectile aids not indicated</td>
</tr>
<tr>
<td>2</td>
<td>Decrease in erectile function (frequency/ rigidity of erections), erectile aids indicated</td>
</tr>
<tr>
<td>3</td>
<td>Decrease in erectile function (frequency/ rigidity of erections) but erectile aids not helpful; penile prosthesis indicated</td>
</tr>
</tbody>
</table>

☐ Tick if not assessable  
Reason: ____________________________

### Haemorrhage, GI (rectal)

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>None</td>
</tr>
<tr>
<td>1</td>
<td>Mild, intervention (other than iron supplements) not indicated</td>
</tr>
<tr>
<td>2</td>
<td>Symptomatic and medical intervention or minor cauterization indicated</td>
</tr>
<tr>
<td>3</td>
<td>Transfusion, interventional radiology, endoscopic, or operative intervention indicated; radiation therapy (i.e., haemostasis of bleeding site)</td>
</tr>
<tr>
<td>4</td>
<td>Life-threatening consequences, major urgent intervention indicated</td>
</tr>
</tbody>
</table>

☐ Tick if not assessable  
Reason: ____________________________

### Incontinence (anal)

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>None</td>
</tr>
<tr>
<td>1</td>
<td>Occasional use of pads</td>
</tr>
<tr>
<td>2</td>
<td>Daily use of pads</td>
</tr>
<tr>
<td>3</td>
<td>Interfering with ADL; operative intervention indicated</td>
</tr>
<tr>
<td>4</td>
<td>Permanent bowel diversion indicated</td>
</tr>
</tbody>
</table>

☐ Tick if not assessable  
Reason: ____________________________

### Adverse Events: Others

☐ Tick if the patient did not experience any other AEs

Specify*: ____________________________

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>None</td>
</tr>
<tr>
<td>1</td>
<td>Mild Adverse Event</td>
</tr>
<tr>
<td>2</td>
<td>Moderate Adverse Event</td>
</tr>
<tr>
<td>3</td>
<td>Severe and undesirable Adverse Event</td>
</tr>
<tr>
<td>4</td>
<td>Life-threatening or disabling Adverse Event</td>
</tr>
</tbody>
</table>

Specify*: ____________________________

* Refer to CTCAE v 3.0 and use exact term or specify other (http://ctep.cancer.gov/reporting/ctc.html). If more than two Other Adverse Events are present:

☐ Tick and record additional events on form [AE].
### EORTC Quality of Life Questionnaire - C30 (version 3)

We are interested in some things about you and your health. Please answer all of the questions yourself by circling the number that best applies to you. There are no “right” or “wrong” answers. The information that you provide will remain strictly confidential.

**Today’s date** (dd/mm/yy):

<table>
<thead>
<tr>
<th>Date of Birth</th>
<th>1</th>
<th>2</th>
<th>3</th>
<th>4</th>
</tr>
</thead>
</table>

**Your birthdate**

## SEXUAL HEALTH INVENTORY FOR MEN (SHIM)

### PATIENT INSTRUCTIONS

Sexual health is an important part of an individual’s overall physical and emotional well-being. Erectile dysfunction is one type of very common sexual complaint. There are many different treatment options for erectile dysfunction. This questionnaire is designed to help you and your physician identify if you may be experiencing erectile dysfunction and to potentially discuss treatment options.

Each question has several responses from which you are asked to choose the one that best describes your own situation. Please be sure that you select at least one but only one response by circling the number that best fits your answer.

### Over the past six months:

<table>
<thead>
<tr>
<th>Question</th>
<th>Responses</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. How do you rate your confidence that you could get and keep an erection?</td>
<td><strong>VERY LOW</strong> 2 <strong>LOW</strong> 3 <strong>MODERATE</strong> 4 <strong>HIGH</strong> 5</td>
</tr>
<tr>
<td>2. When you had erections with sexual stimulation, how often were your erections hard enough for penetration?</td>
<td><strong>NO SEXUAL ACTIVITY</strong> 0 <strong>ALMOST NEVER</strong> 1 <strong>A FEW TIMES</strong> 2 <strong>SOMETIMES</strong> 3 <strong>MOST TIMES</strong> 4 <strong>ALMOST ALWAYS</strong> 5</td>
</tr>
<tr>
<td>3. During sexual intercourse, how often were you able to maintain your erection after you had penetrated (entered) your partner?</td>
<td><strong>DID NOT ATTEMPT INTERCOURSE</strong> 0 <strong>ALMOST NEVER</strong> 1 <strong>A FEW TIMES</strong> 2 <strong>SOMETIMES</strong> 3 <strong>MOST TIMES</strong> 4 <strong>ALMOST ALWAYS</strong> 5</td>
</tr>
<tr>
<td>4. During sexual intercourse, how difficult was it to maintain your erection to completion of intercourse?</td>
<td><strong>DID NOT ATTEMPT INTERCOURSE</strong> 0 <strong>EXTREMELY DIFFICULT</strong> 1 <strong>VERY DIFFICULT</strong> 2 <strong>DIFFICULT</strong> 3 <strong>SLIGHTLY DIFFICULT</strong> 4 <strong>NOT DIFFICULT</strong> 5</td>
</tr>
<tr>
<td>5. When you attempted sexual intercourse, how often was it satisfactory for you?</td>
<td><strong>DID NOT ATTEMPT INTERCOURSE</strong> 0 <strong>ALMOST NEVER</strong> 1 <strong>A FEW TIMES</strong> 2 <strong>SOMETIMES</strong> 3 <strong>MOST TIMES</strong> 4 <strong>ALMOST ALWAYS</strong> 5</td>

</tbody>
</table>
Hospital Anxiety and Depression Scale (HADS)

Today’s date (ddmmyy)

Clinicians are aware that emotions play an important part in most illnesses. This questionnaire is designed to help the research team know how you and other patients feel. Read each statement below and:

- **Tick the box next to the response** which comes closest to how you have been feeling in the past week.
- Please note that your doctor will not routinely be provided with your completed questionnaire. If you have any concerns you would like to address, please tell your doctor.

Don’t take too long over your replies. Your immediate reaction to each item will probably be more accurate.

**During the past week:**

1. I feel tense or “wound up”
   - Most of the time
   - A lot of the time
   - From time to time, occasionally
   - Not at all

2. I still enjoy the things I used to enjoy
   - Definitely as much
   - Not quite so much
   - Only a little
   - Hardly at all

3. I get a sort of frightened feeling as if something awful is about to happen
   - Very definitely and quite badly
   - Yes, but not too badly
   - A little, but it doesn’t worry me
   - Not at all

4. I can laugh and see the funny side of things
   - As much as I always could
   - Not quite so much now
   - Definitely not so much now
   - Not at all

5. I feel as if I am slowed down
   - Nearly all the time
   - Very often
   - Sometimes
   - Not at all

6. I get a sort of frightened feeling like “butterflies” in the stomach
   - Not at all
   - Occasionally
   - Quite often
   - Very often

7. I have lost interest in my appearance
   - Definitely
   - I don’t take as much care as I should
   - I may not take quite as much care
   - I take just as much care as ever

8. I feel restless as if I have to be on the move
   - Very much indeed
   - Quite a lot
   - Not very much
   - Not at all

*Continued on the next page*
Hospital Anxiety and Depression Scale (HADS)

Continued from previous page

During the past week:

9. Worrying thoughts go through my mind
   - A great deal of the time
   - A lot of the time
   - Not too often
   - Very little

10. I feel cheerful
    - Never
    - Not often
    - Sometimes
    - Most of the time

11. I can sit at ease and feel relaxed
    - Definitely
    - Usually
    - Not often
    - Not at all

12. I look forward with enjoyment to things
    - As much as I ever did
    - Rather less than I used to
    - Definitely less than I used to
    - Hardly at all

13. I get sudden feelings of panic
    - Very often indeed
    - Quite often
    - Not very often
    - Not at all

14. I can enjoy a good book or radio or television programme
    - Often
    - Sometimes
    - Not often
    - Very seldom

Now check that you have answered all 14 questions

Thank you
INCLUSION CRITERIA (all answers must be YES for the patient to be eligible)

1. Prior Radical Prostatectomy (RP) for adenocarcinoma of the prostate.

2. Capable of starting RT within 6 months of RP:
   Date of RP (dd/mm/yy)

3. Histological confirmation of adenocarcinoma of the prostate with the Gleason score reported.

4. Patients must have at least one of the following risk factors: (tick all that apply)
   - Positive margins
   - Extraprostatic extension without seminal vesicle involvement (pT3a)
   - Extraprostatic extension with seminal vesicle involvement (pT3b)

5. ECOG performance status of either 0 or 1: (please tick box below)
   - 0 = fully active, able to carry on all pre-disease performance without restriction
   - 1 = Restricted in physically strenuous activity but ambulatory and able to carry out work of a light or sedentary nature, eg, light house work, office work

6. Most recent PSA < 0.10 ng/ml following RP and prior to randomisation

   Post-operative PSA (ng/mL)*
   * The "<" symbol cannot be entered on the electronic randomisation system.
   If relevant, please enter it on this form.

7. Patient able to adhere to the specified follow-up schedule and complete the Quality of Life and anxiety/depression self-assessments.

8. Written informed consent obtained prior to pre-randomisation evaluations:
   Date of consent (dd/mm/yy)

9. Completion of all pre-randomisation evaluations: (tick if completed)
   - Pre-randomisation patient assessment ([A1] page 1)
   - Pre-randomisation co-morbidities ([A1] page 2)
   - Pre-randomisation adverse events ([A1] pages 3 & 4)
   - Pre-randomisation patient questionnaires ([A2] pages 1-7)

Continue on the next page
### Exclusion Criteria (all answers must be NO for the patient to be eligible)

1. Previous pelvic RT
2. Androgen deprivation prior to or following RP
3. Evidence of nodal or distant metastases
4. Co-morbidities that would interfere with the completion of treatment and/or 5 years of follow-up
5. Concurrent cytotoxic medication
6. Hip prosthesis

### Stratification Factors:

1. RT Institution: _________________________________
2. Surgical margins positive
3. Seminal vesicle involvement (pT3b)
4. Gleason score
5. Pre-operative PSA (most recent) ng/mL

---

To randomise this patient, please log on to the randomisation website at: https://www.ctru.auckland.ac.nz/raves
Complete the on-line form and record the results below.

### Randomisation Allocation

- Arm 1 = Adjuvant RT commenced within 4 months of RP (standard)
- Arm 2 = Active surveillance with early salvage RT following a rising PSA (experimental)

---

Please return original completed forms to: RAVES Trial Centre Manager, Cancer and Blood Research, Auckland Hospital PO BOX 92024, Auckland, NZ

CRF Version 4.1: 25 February 2016
## 1. Time from Randomisation

- Complete form B1 for each **3 monthly** PSA result during years 0-5, and each **6 monthly** PSA result from year 6 onwards. Clinic visits and PSA tests are due +/- 28 days from the target date.

<table>
<thead>
<tr>
<th>Years</th>
<th>Months</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

## 2. Clinic Visit

- Clinic visits are required **6 monthly from randomisation** for the first 5 years, and **annually thereafter**.

- **Annually** from randomisation:

<table>
<thead>
<tr>
<th>PSA date (dd/mm/yy)</th>
<th>Reason visit not done or done out of time frame:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

## 3. PSA

- **PSA date (dd/mm/yy)**

<table>
<thead>
<tr>
<th>PSA level (ng/mL)</th>
<th>Reason PSA was not done or done out of time frame:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

## 4. Salvage Radiotherapy Criteria (Rising PSA)

- **Yes**  **No**  **N/A**  Is the PSA $\geq 0.20$ ng/ml?

If yes, is it rising when compared with the previous measurement?

If you answered yes to both questions, then **SRT is required**.

If SRT is required, please:

- Fax or email Form B3 to Coordinating Trial Centre (see instructions on [B3])
- Attach the de-identified PSA results that trigger SRT to form B3.
- RT must start **no later than 4 months after the first PSA result $> 0.20$ ng/mL**
- Please refer to RT QA guidelines for specific planning and treatment data requirements
- The patient crosses over to the Arm 1 schedule and forms as per table on CRF page 4.

---

Form completed by (print)______________________________ (signed)______________________________ Date: D D M M Y Y
1. Time from Randomisation

- Complete form B2 for each 6 monthly PSA test, due relative to randomisation. Clinic visits and PSA tests are due +/- 28 days from the target date.

2. Clinic Visit

- Clinic visits are required 6 monthly from randomisation for the first 5 years, and annually thereafter.

- Please complete form [C4] for annual clinic visits.

3. PSA

- If Yes, is it rising when compared with the previous PSA value? (See protocol Section 13 for details.)

4. Biochemical Failure Criteria

If you answered yes to both questions, this constitutes biochemical failure.
If biochemical failure has occurred for the first time, please:
- Attached the de-identified PSA results to this form
- Report at next annual assessment (form C4 or C5).
To: RAVES Coordinating Trial Centre

From: ____________________________

Fax: +64 9 375 7053

PSA Results: If Salvage Radiotherapy Required

- Only PSA results that trigger SRT (≥0.20 ng/mL) must be reported on [B3]. Please attach de-identified PSA results to this form.
- Any PSA result triggering SRT must be reported, regardless of whether the PSA test was done according to the trial schedule.

PSA date (dd/mm/yy)

PSA level (ng/mL)

Salvage Radiotherapy

RT must start no later than 4 months after the first PSA result ≥0.20 ng/mL. To facilitate Timely QA Reviews, please alert the Trial Centre with the planned SRT start date. If the start date subsequently changes, please let the Trial Centre know.

Planned start date of salvage RT (dd/mm/yy)

☐ Tick if salvage RT start date is still to be confirmed. Please notify the Trial Centre once the start date is available.

REMINDERS: Planning data is due within at least one week prior to the patient’s RT start date for Timely Review. Data must be submitted electronically via TROG’s Central Quality Management System (CQMS).

☐ Tick box if patient will not receive salvage radiotherapy, and indicate reason below:

Reason: ________________________________________________________________

________________________________________________________________________

• Please submit the original form [B3] and the de-identified PSA result to the Trial Centre.
• Please refer to RT QA guidelines for specific planning and treatment data requirements.
• Patient assessment is required at RT start, RT end, and 6 weeks post-RT (Forms [C1], [C2] and [C3]).
**Clinic visit date** (dd/mm/yy):

- [ ] Tick box if clinic visit not done
- Reason: ____________________________

*Note:* The next clinic visit is required at the end of radiotherapy, and can be done during the last week of RT.

**Patient Questionnaires (Form C1Q)**

Are the Quality of Life and HADS forms completed?

- [ ] Yes  [ ] No  [C1Q] EORTC C30 (pages 1 & 2)
  - If no, please explain why: ____________________________

- [ ] Yes  [ ] No  [C1Q] EORTC PR25 (pages 3 & 4)
  - If no, please explain why: ____________________________

- [ ] Yes  [ ] No  [C1Q] HADS (pages 5 & 6)
  - If no, please explain why: ____________________________

**PSA Arm 2 (Salvage RT) ONLY**

**PSA day 1 of RT**

**Date of PSA (ddmmyy):**

- [ ] Tick box if PSA assessment was not done on day 1 of RT.
  - Reason: ____________________________

*Continued on next page*
All AEs must be scored using Common Terminology Criteria for Adverse Events (CTCAE) Version 3.0. Please enter the grade of current symptoms.

**Adverse Events : Genitourinary**

**Cystitis**
- 0 = None
- 1 = Asymptomatic
- 2 = Frequency with dysuria; macroscopic haematuria
- 3 = Transfusion; IV pain medications; bladder irrigation indicated
- 4 = Catastrophic bleeding; major non-elective intervention indicated

□ Tick if not assessable
Reason: ________________________

**Urethral Stricture/Stenosis**
- 0 = None
- 1 = Asymptomatic, radiographic or endoscopic findings only
- 2 = Symptomatic but no hydronephrosis, sepsis, or renal dysfunction; dilation or endoscopic repair or stent placement indicated
- 3 = Symptomatic and altered organ function (e.g., sepsis, hydronephrosis, or renal dysfunction); operative intervention indicated
- 4 = Life-threatening consequences; organ failure or operative intervention requiring organ resection indicated

□ Tick if not assessable
Reason: ________________________

**Urinary Incontinence**
- 0 = None
- 1 = Occasional (e.g., with coughing, sneezing, etc., pads not indicated)
- 2 = Spontaneous, pads indicated
- 3 = Interfering with ADL; intervention indicated (e.g., clamp, collagen injections)
- 4 = Operative intervention indicated (e.g., cystectomy or permanent urinary diversion)

□ Tick if not assessable
Reason: ________________________

**Urinary Retention**
- 0 = None
- 1 = Hesitancy or dribbling, no significant residual urine; retention
  Occurring during the immediate postoperative period
- 2 = Hesitancy requiring medication; or operative bladder atony requiring indwelling catheter before immediate postoperative period but for less than 6 weeks
- 3 = More than daily catheterization indicated; urological intervention indicated (e.g., TURP, suprapubic tube, urethrotomy)
- 4 = Life-threatening consequences; organ failure (e.g., bladder rupture); operative intervention requiring organ resection

□ Tick if not assessable
Reason: ________________________

**Urinary Frequency/Urgency**
- 0 = None
- 1 = Increase in frequency or nocturia up to 2 x normal, enuresis
- 2 = Increase > 2 x normal, but less than hourly
- 3 = > once per hour; urgency or catheter indicated

□ Tick if not assessable
Reason: ________________________

**Haemorrhage, GU**
- 0 = None
- 1 = Minimal or microscopic bleeding, intervention not indicated
- 2 = Gross bleeding, medical intervention or urinary tract irrigation indicated
- 3 = Transfusion, interventional radiology, endoscopic, or operative intervention indicated; radiation therapy (i.e., haemostasis of bleeding site)
- 4 = Life-threatening consequences; major urgent intervention indicated

□ Tick if not assessable
Reason: ________________________

All AEs must be scored using Common Terminology Criteria for Adverse Events (CTCAE) Version 3.0. Please enter the grade of current symptoms.

### Adverse Events: Gastrointestinal

- **Diarrhoea**
  - 0 = None
  - 1 = Increase of < 4 stools per day over baseline; mild increase in ostomy output compared to baseline
  - 2 = Increase of 4-6 stools per day over baseline; IV fluids indicated < 24 hrs; moderate increase in ostomy output compared to baseline; not interfering with ADL
  - 3 = Increase of ≥ 7 stools per day over baseline; incontinence; IV fluids ≥ 24 hrs; hospitalization; severe increase in ostomy output compared to baseline; interfering with ADL
  - 4 = Life-threatening consequences (e.g., hemodynamic collapse)

- **Haemorrhage, Gl (rectal)**
  - 0 = None
  - 1 = Mild, intervention (other than iron supplements) not indicated
  - 2 = Symptomatic and medical intervention or minor cautization indicated
  - 3 = Transfusion, interventional radiology, endoscopic, or operative intervention indicated; radiation therapy (i.e. haemostasis of bleeding site)
  - 4 = Life-threatening consequences, major urgent intervention indicated

- **Incontinence (anal)**
  - 0 = None
  - 1 = Occasional use of pads
  - 2 = Daily use of pads
  - 3 = Interfering with ADL; operative intervention indicated
  - 4 = Permanent bowel diversion indicated

- **Specify**: ______________________

- **Tick if not assessable**
  - Reason: ______________________

### Adverse Events: Sexual Function

- **Erectile Dysfunction**
  - 0 = None
  - 1 = Decrease in erectile function (frequency/rigidity of erections) but erectile aids not indicated
  - 2 = Decrease in erectile function (frequency/rigidity of erections), erectile aids indicated
  - 3 = Decrease in erectile function (frequency/rigidity of erections) but erectile aids not helpful; penile prosthesis indicated

- **Specify**: ______________________

- **Tick if not assessable**
  - Reason: ______________________

EORTC Quality of Life Questionnaire - PR25 (continued)

Approved for use by the EORTC 2008.

During the past week:

47. Has weight *loss* been a problem for you?
   - Not at all: 1
   - A little: 2
   - Quite a bit: 3
   - Very Much: 4

48. Has weight *gain* been a problem for you?
   - Not at all: 1
   - A little: 2
   - Quite a bit: 3
   - Very Much: 4

49. Have you felt less masculine as a result of your illness or treatment?
   - Not at all: 1
   - A little: 2
   - Quite a bit: 3
   - Very Much: 4

50. To what extent were you interested in sex?
   - Not at all: 1
   - A little: 2
   - Quite a bit: 3
   - Very Much: 4

51. To what extent were you sexually active (with or without intercourse)?
   - Not at all: 1
   - A little: 2
   - Quite a bit: 3
   - Very Much: 4

**PLEASE ANSWER THE NEXT FOUR QUESTIONS ONLY IF YOU HAVE BEEN SEXUALLY ACTIVE OVER THE LAST 4 WEEKS.**

52. To what extent was sex enjoyable for you?
   - Not at all: 1
   - A little: 2
   - Quite a bit: 3
   - Very Much: 4

53. Did you have difficulty getting or maintaining an erection?
   - Not at all: 1
   - A little: 2
   - Quite a bit: 3
   - Very Much: 4

54. Did you have ejaculation problems (e.g. dry ejaculation)?
   - Not at all: 1
   - A little: 2
   - Quite a bit: 3
   - Very Much: 4

55. Have you felt uncomfortable about being sexually intimate?
   - Not at all: 1
   - A little: 2
   - Quite a bit: 3
   - Very Much: 4
Hospital Anxiety and Depression Scale (HADS)

Clinicians are aware that emotions play an important part in most illnesses. This questionnaire is designed to help the research team know how you and other patients feel. Read each statement below and:

- **Tick the box next to the response** which comes closest to how you have been feeling **in the past week**.
- **Please note that your doctor will not routinely be provided with your completed questionnaire. If you have any concerns you would like to address, please tell your doctor.**

Don’t take too long over your replies. Your immediate reaction to each item will probably be more accurate.

### During the past week:

1. **I feel tense or “wound up”**
   - [ ] Most of the time
   - [ ] A lot of the time
   - [ ] From time to time, occasionally
   - [ ] Not at all

2. **I still enjoy the things I used to enjoy**
   - [ ] Definitely as much
   - [ ] Not quite so much
   - [ ] Only a little
   - [ ] Hardly at all

3. **I get a sort of frightened feeling as if something awful is about to happen**
   - [ ] Very definitely and quite badly
   - [ ] Yes, but not too badly
   - [ ] A little, but it doesn’t worry me
   - [ ] Not at all

4. **I can laugh and see the funny side of things**
   - [ ] As much as I always could
   - [ ] Not quite so much now
   - [ ] Definitely not so much now
   - [ ] Not at all

5. **I feel as if I am slowed down**
   - [ ] Nearly all the time
   - [ ] Very often
   - [ ] Sometimes
   - [ ] Not at all

6. **I get a sort of frightened feeling like “butterflies” in the stomach**
   - [ ] Not at all
   - [ ] Occasionally
   - [ ] Quite often
   - [ ] Very often

7. **I have lost interest in my appearance**
   - [ ] Definitely
   - [ ] I don’t take as much care as I should
   - [ ] I may not take quite as much care
   - [ ] I take just as much care as ever

8. **I feel restless as if I have to be on the move**
   - [ ] Very much indeed
   - [ ] Quite a lot
   - [ ] Not very much
   - [ ] Not at all
Hospital Anxiety and Depression Scale (HADS)

During the past week:

9. Worrying thoughts go through my mind
   - A great deal of the time
   - A lot of the time
   - Not too often
   - Very little

10. I feel cheerful
    - Never
    - Not often
    - Sometimes
    - Most of the time

11. I can sit at ease and feel relaxed
    - Definitely
    - Usually
    - Not often
    - Not at all

12. I look forward with enjoyment to things
    - As much as I ever did
    - Rather less than I used to
    - Definitely less than I used to
    - Hardly at all

13. I get sudden feelings of panic
    - Very often indeed
    - Quite often
    - Not very often
    - Not at all

14. I can enjoy a good book or radio or television programme
    - Often
    - Sometimes
    - Not often
    - Very seldom

Now check that you have answered all 14 questions

Thank you

<tr>
<td>1</td>
<td>Asymptomatic, radiographic or endoscopic findings only</td>
</tr>
<tr>
<td>2</td>
<td>Symptomatic but no hydroureteronephrosis, sepsis, or renal dysfunction; dilation or endoscopic repair or stent placement indicated</td>
</tr>
<tr>
<td>3</td>
<td>Symptomatic and altered organ function (e.g., sepsis, hydroureteronephrosis, or renal dysfunction); operative intervention indicated</td>
</tr>
<tr>
<td>4</td>
<td>Life-threatening consequences; organ failure or operative intervention requiring organ resection indicated</td>
</tr>
</tbody>
</table>

- **Tick if not assessable**
- **Reason:** __________

#### Urinary Incontinence

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>None</td>
</tr>
<tr>
<td>1</td>
<td>Occasional (e.g., with coughing, sneezing, etc., pads not indicated)</td>
</tr>
<tr>
<td>2</td>
<td>Spontaneous, pads indicated</td>
</tr>
<tr>
<td>3</td>
<td>Interfering with ADL; intervention indicated (e.g., clamp, collagen injections)</td>
</tr>
<tr>
<td>4</td>
<td>Operative intervention indicated (e.g., cystectomy or permanent urinary diversion)</td>
</tr>
</tbody>
</table>

- **Tick if not assessable**
- **Reason:** __________

#### Urinary Retention

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>None</td>
</tr>
<tr>
<td>1</td>
<td>Hesitancy or dribbling, no significant residual urine; retention Occurring during the immediate postoperative period</td>
</tr>
<tr>
<td>2</td>
<td>Hesitancy requiring medication; or operative bladder atony requiring indwelling catheter beyond immediate postoperative period but for less than 6 weeks</td>
</tr>
<tr>
<td>3</td>
<td>More than daily catheterization indicated; urological intervention indicated (e.g., TURP, suprapubic tube, urethrotomy)</td>
</tr>
<tr>
<td>4</td>
<td>Life-threatening consequences; organ failure (e.g., bladder rupture); operative intervention requiring organ resection</td>
</tr>
</tbody>
</table>

- **Tick if not assessable**
- **Reason:** __________

#### Urinary Frequency/Urgency

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>None</td>
</tr>
<tr>
<td>1</td>
<td>Increase in frequency or nocturia up to 2 x normal, enuresis</td>
</tr>
<tr>
<td>2</td>
<td>Increase &gt; 2 x normal, but less than hourly</td>
</tr>
<tr>
<td>3</td>
<td>&gt; once per hour; urgency or catheter indicated</td>
</tr>
</tbody>
</table>

- **Tick if not assessable**
- **Reason:** __________

#### Haemorrhage, GU

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>None</td>
</tr>
<tr>
<td>1</td>
<td>Minimal or microscopic bleeding, intervention not indicated</td>
</tr>
<tr>
<td>2</td>
<td>Gross bleeding, medical intervention or urinary tract irrigation indicated</td>
</tr>
<tr>
<td>3</td>
<td>Transfusion, interventional radiology, endoscopic, or operative intervention indicated; radiation therapy (i.e. haemostasis of bleeding site)</td>
</tr>
<tr>
<td>4</td>
<td>Life threatening consequences; major urgent intervention indicated</td>
</tr>
</tbody>
</table>

- **Tick if not assessable**
- **Reason:** __________

Hospital Anxiety and Depression Scale (HADS)

Clinicians are aware that emotions play an important part in most illnesses. This questionnaire is designed to help the research team know how you and other patients feel. Read each statement below and:

- **Tick the box next to the response** which comes closest to how you have been feeling **in the past week**.
- Please note that your doctor will not routinely be provided with your completed questionnaire. If you have any concerns you would like to address, please tell your doctor.

Don’t take too long over your replies. Your immediate reaction to each item will probably be more accurate.

### During the past week:

1. I feel tense or “wound up”
   - [ ] Most of the time
   - [ ] A lot of the time
   - [ ] From time to time, occasionally
   - [ ] Not at all

2. I still enjoy the things I used to enjoy
   - [ ] Definitely as much
   - [ ] Not quite so much
   - [ ] Only a little
   - [ ] Hardly at all

3. I get a sort of frightened feeling as if something awful is about to happen
   - [ ] Very definitely and quite badly
   - [ ] Yes, but not too badly
   - [ ] A little, but it doesn’t worry me
   - [ ] Not at all

4. I can laugh and see the funny side of things
   - [ ] As much as I always could
   - [ ] Not quite so much now
   - [ ] Definitely not so much now
   - [ ] Not at all

5. I feel as if I am slowed down
   - [ ] Nearly all the time
   - [ ] Very often
   - [ ] Sometimes
   - [ ] Not at all

6. I get a sort of frightened feeling like “butterflies” in the stomach
   - [ ] Not at all
   - [ ] Occasionally
   - [ ] Quite often
   - [ ] Very often

7. I have lost interest in my appearance
   - [ ] Definitely
   - [ ] I don’t take as much care as I should
   - [ ] I may not take quite as much care
   - [ ] I take just as much care as ever

8. I feel restless as if I have to be on the move
   - [ ] Very much indeed
   - [ ] Quite a lot
   - [ ] Not very much
   - [ ] Not at all

| 9. Worrying thoughts go through my mind | - A great deal of the time 
- A lot of the time 
- Not too often 
- Very little |
| 10. I feel cheerful | - Never 
- Not often 
- Sometimes 
- Most of the time |
| 11. I can sit at ease and feel relaxed | - Definitely 
- Usually 
- Not often 
- Not at all |
| 12. I look forward with enjoyment to things | - As much as I ever did 
- Rather less than I used to 
- Definitely less than I used to 
- Hardly at all |
| 13. I get sudden feelings of panic | - Very often indeed 
- Quite often 
- Not very often 
- Not at all |
| 14. I can enjoy a good book or radio or television programme | - Often 
- Sometimes 
- Not often 
- Very seldom |

Now check that you have answered all 14 questions.

**Thank you**
### Radiotherapy Summary

Total dose in Gy to ICRU point

#### Phase 1:
- **Prescribed dose (Gy):**
- **Number of fractions:**

- **Tick if single phase plan was used.**

  **Note:** A two phase technique is permitted only with prior approval of the RAVES QA Committee.

#### Phase 2:
- **Prescribed dose (Gy):**
- **Number of fractions:**

#### Date treatment started (dd/mm/yy)

#### Date treatment finished (dd/mm/yy)

#### Duration in days of unplanned breaks in treatment (i.e. not weekends/holidays or planned maintenance)

**Indicate reason(s) for unplanned breaks in treatment below (tick all that apply):**

- Radiotherapy Adverse Event
- Non-treatment related Adverse Event
- Progressive Disease
- Patient refusal to continue treatment
- Public holiday
- Other (specify): ____________________________

### Imaging:

What type of imaging device was used to confirm accuracy of treatment delivery? **Tick all that apply.**

- MV
- kV
- MVCBCT
- kVCBCT
- Other: ____________

Record the frequency, reference source and correction method below. **If more than one type of imaging was used, record details for each additional device on page 2.**

**Patient Questionnaires (Form C3Q)**

Are the Quality of Life and HADS forms completed?

- Yes  ☐ No  ☐ EORTC C30 [C3Q] (pages 1 & 2)
  
  If no, please explain why: _________________________________

- Yes  ☐ No  ☐ EORTC PR25 [C3Q] (pages 3 & 4)
  
  If no, please explain why: _________________________________

- Yes  ☐ No  ☐ HADS [C3Q] (pages 5 & 6)
  
  If no, please explain why: _________________________________

**PSA**

Date of PSA (dd/mm/yy):

|   |   |   |   |   |

- PSA level (ng/mL)

  |   |   |

- Please tick box if the 6 week post-RT PSA assessment was not done.
  
  Reason: _________________________________

**Reminder**

The next trial follow-ups are due:

- 6 monthly from randomisation (years 1-5) AND PSA is due 6 monthly from randomisation (years 1-10)
- 12 monthly from randomisation (years 6-10)

Adverse Events: Genitourinary

Cystitis

- 0 = None
- 1 = Asymptomatic
- 2 = Frequency with dysuria; macroscopic haematuria
- 3 = Transfusion; IV pain medications; bladder irrigation indicated
- 4 = Catastrophic bleeding; major non-elective intervention indicated

☐ Tick if not assessable
Reason: ______________________

Urethral Stricture/Stenosis

- 0 = None
- 1 = Asymptomatic, radiographic or endoscopic findings only
- 2 = Symptomatic but no hydronephrosis, sepsis, or renal dysfunction; dilatation or endoscopic repair or stent placement indicated
- 3 = Symptomatic and altered organ function (e.g., sepsis, hydronephrosis, or renal dysfunction); operative intervention indicated
- 4 = Life-threatening consequences; organ failure or operative intervention requiring organ resection indicated

☐ Tick if not assessable
Reason: ______________________

Urinary Incontinence

- 0 = None
- 1 = Occasional (e.g., with coughing, sneezing, etc., pads not indicated)
- 2 = Spontaneous, pads indicated
- 3 = Interfering with ADL; intervention indicated (e.g., clamp, collagen injections)
- 4 = Operative intervention indicated (e.g., cystectomy or permanent urinary diversion)

☐ Tick if not assessable
Reason: ______________________

Urinary Retention

- 0 = None
- 1 = Hesitancy or dribbling, no significant residual urine; retention
  Occurring during the immediate postoperative period
- 2 = Hesitancy requiring medication; or operative bladder atony requiring indwelling catheter beyond immediate postoperative period but for less than 6 weeks
- 3 = More than daily catheterization indicated; urological intervention indicated (e.g., TURP, suprapubic tube, urethrotomy)
- 4 = Life-threatening consequences; organ failure (e.g., bladder rupture); operative intervention requiring organ resection

☐ Tick if not assessable
Reason: ______________________

Urinary Frequency/Urgency

- 0 = None
- 1 = Increase in frequency or nocturia up to 2 x normal, enuresis
- 2 = Increase > 2 x normal, but less than hourly
- 3 = > once per hour; urgency or catheter indicated

☐ Tick if not assessable
Reason: ______________________

Haemorrhage, GU

- 0 = None
- 1 = Minimal or microscopic bleeding, intervention not indicated
- 2 = Gross bleeding, medical intervention or urinary tract irritation indicated
- 3 = Transfusion, interventional radiology, endoscopic, or operative intervention indicated; radiation therapy (i.e. haemostasis of bleeding site)
- 4 = Life threatening consequences; major urgent intervention indicated

☐ Tick if not assessable
Reason: ______________________
All AEs must be scored using Common Terminology Criteria for Adverse Events (CTCAE) Version 3.0. Please enter the grade of current symptoms.

### Adverse Events: Gastrointestinal

<table>

**Today’s date (dd/mm/yy)**

Clinicians are aware that emotions play an important part in most illnesses. This questionnaire is designed to help the research team know how you and other patients feel. Read each statement below and:

- **Tick the box next to the response** which comes closest to how you have been feeling **in the past week**.
- Please note that your doctor will not routinely be provided with your completed questionnaire. If you have any concerns you would like to address, please tell your doctor.

Don’t take too long over your replies. Your immediate reaction to each item will probably be more accurate.

**During the past week:**

1. **I feel tense or “wound up”**
   - [ ] Most of the time
   - [ ] A lot of the time
   - [ ] From time to time, occasionally
   - [ ] Not at all

2. **I still enjoy the things I used to enjoy**
   - [ ] Definitely as much
   - [ ] Not quite so much
   - [ ] Only a little
   - [ ] Hardly at all

3. **I get a sort of frightened feeling as if something awful is about to happen**
   - [ ] Very definitely and quite badly
   - [ ] Yes, but not too badly
   - [ ] A little, but it doesn’t worry me
   - [ ] Not at all

4. **I can laugh and see the funny side of things**
   - [ ] As much as I always could
   - [ ] Not quite so much now
   - [ ] Definitely not so much now
   - [ ] Not at all

5. **I feel as if I am slowed down**
   - [ ] Nearly all the time
   - [ ] Very often
   - [ ] Sometimes
   - [ ] Not at all

6. **I get a sort of frightened feeling like “butterflies” in the stomach**
   - [ ] Not at all
   - [ ] Occasionally
   - [ ] Quite often
   - [ ] Very often

7. **I have lost interest in my appearance**
   - [ ] Definitely
   - [ ] I don’t take as much care as I should
   - [ ] I may not take quite as much care
   - [ ] I take just as much care as ever

8. **I feel restless as if I have to be on the move**
   - [ ] Very much indeed
   - [ ] Quite a lot
   - [ ] Not very much
   - [ ] Not at all

**Continue on next page, please**
Hospital Anxiety and Depression Scale (HADS)

Continued from previous page

During the past week:

9. Worrying thoughts go through my mind
   - A great deal of the time
   - A lot of the time
   - Not too often
   - Very little

10. I feel cheerful
    - Never
    - Not often
    - Sometimes
    - Most of the time

11. I can sit at ease and feel relaxed
    - Definitely
    - Usually
    - Not often
    - Not at all

12. I look forward with enjoyment to things
    - As much as I ever did
    - Rather less than I used to
    - Definitely less than I used to
    - Hardly at all

13. I get sudden feelings of panic
    - Very often indeed
    - Quite often
    - Not very often
    - Not at all

14. I can enjoy a good book or radio or television programme
    - Often
    - Sometimes
    - Not often
    - Very seldom

Do you know the result from your most recent PSA test?  
[ ] Yes  [ ] No

Now check that you have answered all 14 questions

Thank you
Complete form [C4] annually from randomisation.

Clinic visit date (dd/mm/yy):

☐ Tick box if clinic visit not done. Reason: __________________________________________

CRF Version 4.1: 25 February 2016
## Rectal Examination

A rectal exam is recommended if:
- PSA is rising compared to the previous measurement **AND**
- Local failure is not documented

**Was a rectal exam performed?**
- Yes
- No
- Not Required

**If yes**, give date (dd/mm/yy)

---

## Androgen Deprivation Therapy

**Has androgen deprivation therapy been started?**
- Yes
- No

**If yes** and started since last assessment, give start date (dd/mm/yy)

**Stop date (ddmmyy)**

Or tick if:
- **Ongoing**
- **Intermittent**

---

## Relapse

**Has the patient relapsed?**
- Yes
- No

**If the patient has not relapsed, please sign and date at bottom.**
**If no relapse has occurred, do not complete the remainder of this form.**

---

## Biochemical Failure

**Has biochemical failure occurred?** Please fill in the box to the left with one of the following numbers:
- 1 = yes
- 2 = no
- 3 = previously reported
- 4 = not assessed

**If yes (1), please complete below:**

Please record the first date the PSA* was $\geq 0.40$ ng/mL:

**(dd/mm/yy)**

*PSA level (ng/mL)*

**Tick box if biochemical failure previously reported on form [B1] or B2.**

</table>

- PSA date (dd/mm/yy)    
- Tick box if confirmatory PSA was not done

- PSA level (ng/mL)*

* Send de-identified PSA results to the Trial Centre with the patient initials and registration number written on the top of the page.

### Treatment Failure

Apply one of the following numbers to answer each question:  
1 = yes  
2 = no  
3 = previously reported  
4 = not assessed  
5 = inevaluable

#### Local Failure

- ☐ Has a local palpable mass been identified?  
  - If yes (1), date (dd/mm/yy)  

- ☐ Has a biopsy-proven local failure been identified?*  
  - Procedure: ____________________________  
  - If yes (1), date (dd/mm/yy)  

- ☐ Has any other local failure been identified?*  
  - Procedure: ____________________________  
  - Specify: _____________________________  
  - If yes (1), date (dd/mm/yy)  

#### Regional

- ☐ Has nodal failure been identified?  
  - (Requires CT or MRI of abdomen and pelvis)*  
  - Procedure: ____________________________  
  - If yes (1), date (dd/mm/yy)  

- ☐ Has any other regional failure been identified?*  
  - Procedure: ____________________________  
  - Specify: _____________________________  
  - If yes (1), date (dd/mm/yy)  

#### Distant Failure

- ☐ Has bone metastasis been identified?  
  - (Requires plain X-ray, bone scan, CT, or MRI)*  
  - Procedure: ____________________________  
  - If yes (1), date (dd/mm/yy)  

- ☐ Has any other distant failure been identified?*  
  - Procedure: ____________________________  
  - Specify: _____________________________  
  - If yes (1), date (dd/mm/yy)  

* Send de-identified report(s) or results for any investigation documenting relapse to the Trial Centre.

EORTC Quality of Life Questionnaire - PR25 (continued)

Approved for use by the EORTC 2008.

During the past week:

47. Has weight loss been a problem for you?
   1  2  3  4

48. Has weight gain been a problem for you?
   1  2  3  4

49. Have you felt less masculine as a result of your illness or treatment?
   1  2  3  4

50. To what extent were you interested in sex?
   1  2  3  4

51. To what extent were you sexually active (with or without intercourse)?
   1  2  3  4

PLEASE ANSWER THE NEXT FOUR QUESTIONS ONLY IF YOU HAVE BEEN SEXUALLY ACTIVE OVER THE LAST 4 WEEKS.

52. To what extent was sex enjoyable for you?
   1  2  3  4

53. Did you have difficulty getting or maintaining an erection?
   1  2  3  4

54. Did you have ejaculation problems (e.g. dry ejaculation)?
   1  2  3  4

55. Have you felt uncomfortable about being sexually intimate?
   1  2  3  4
SHIM: Sexual Health Inventory for Men

PATIENT INSTRUCTIONS

Sexual health is an important part of an individual’s overall physical and emotional well-being. Erectile dysfunction is one type of very common sexual complaint. There are many different treatment options for erectile dysfunction. This questionnaire is designed to help you and your physician identify if you may be experiencing erectile dysfunction and to potentially discuss treatment options.

Each question has several responses from which you are asked to choose the one that best describes your own situation. Please be sure that you select at least one but only one response by circling the number that best fits your answer.

Over the past six months:

<table>
<thead>
<tr>
<th>Question</th>
<th>Responses</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. How do you rate your confidence that you could get and keep an erection?</td>
<td>1 (Very low)</td>
</tr>
<tr>
<td>2. When you had erections with sexual stimulation, how often were your erections hard enough for penetration?</td>
<td>0 (No sexual activity)</td>
</tr>
<tr>
<td>3. During sexual intercourse, how often were you able to maintain your erection after you had penetrated (entered) your partner?</td>
<td>0 (DID NOT ATTEMPT INTER-COURSE)</td>
</tr>
<tr>
<td>4. During sexual intercourse, how difficult was it to maintain your erection to completion of intercourse?</td>
<td>0 (DID NOT ATTEMPT INTER-COURSE)</td>
</tr>
<tr>
<td>5. When you attempted sexual intercourse, how often was it satisfactory for you?</td>
<td>0 (DID NOT ATTEMPT INTER-COURSE)</td>
</tr>
</tbody>
</table>
Hospital Anxiety and Depression Scale (HADS)

Today’s date (dd/mm/yy)

Clinicians are aware that emotions play an important part in most illnesses. This questionnaire is designed to help the research team know how you and other patients feel. Read each statement below and:

- Tick the box next to the response which comes closest to how you have been feeling in the past week.
- Please note that your doctor will not routinely be provided with your completed questionnaire. If you have any concerns you would like to address, please tell your doctor.

Don’t take too long over your replies. Your immediate reaction to each item will probably be more accurate.

### During the past week:

1. I feel tense or “wound up”
   - [ ] Most of the time
   - [ ] A lot of the time
   - [ ] From time to time, occasionally
   - [ ] Not at all

2. I still enjoy the things I used to enjoy
   - [ ] Definitely as much
   - [ ] Not quite so much
   - [ ] Only a little
   - [ ] Hardly at all

3. I get a sort of frightened feeling as if something awful is about to happen
   - [ ] Very definitely and quite badly
   - [ ] Yes, but not too badly
   - [ ] A little, but it doesn’t worry me
   - [ ] Not at all

4. I can laugh and see the funny side of things
   - [ ] As much as I always could
   - [ ] Not quite so much now
   - [ ] Definitely not so much now
   - [ ] Not at all

5. I feel as if I am slowed down
   - [ ] Nearly all the time
   - [ ] Very often
   - [ ] Sometimes
   - [ ] Not at all

6. I get a sort of frightened feeling like “butterflies” in the stomach
   - [ ] Not at all
   - [ ] Occasionally
   - [ ] Quite often
   - [ ] Very often

7. I have lost interest in my appearance
   - [ ] Definitely
   - [ ] I don’t take as much care as I should
   - [ ] I may not take quite as much care
   - [ ] I take just as much care as ever

8. I feel restless as if I have to be on the move
   - [ ] Very much indeed
   - [ ] Quite a lot
   - [ ] Not very much
   - [ ] Not at all

Continue on next page, please
Hospital Anxiety and Depression Scale (HADS)

During the past week:

9. Worrying thoughts go through my mind
   - A great deal of the time
   - A lot of the time
   - Not too often
   - Very little

10. I feel cheerful
    - Never
    - Not often
    - Sometimes
    - Most of the time

11. I can sit at ease and feel relaxed
    - Definitely
    - Usually
    - Not often
    - Not at all

12. I look forward with enjoyment to things
    - As much as I ever did
    - Rather less than I used to
    - Definitely less than I used to
    - Hardly at all

13. I get sudden feelings of panic
    - Very often indeed
    - Quite often
    - Not very often
    - Not at all

14. I can enjoy a good book or radio or television programme
    - Often
    - Sometimes
    - Not often
    - Very seldom

Do you know the result from your most recent PSA test?  
[ ] Yes  [ ] No

Now check that you have answered all 14 questions

Thank you
Health Resource Use Questionnaire

Please answer the questions below, which relate to admissions to hospital during the past year.

1. Have you been admitted to hospital during the last 12 months?
   - Yes
   - No

   **Do not complete the remainder of this form.**

2. If yes, how many times were you admitted to hospital?

3. Please describe the reason you were admitted to hospital, and the number of nights you spent in hospital. Complete a separate line for each admission if you were admitted more than once.

   1. Reason for admission:__________________________________________________________

   Number of nights in hospital for admission 1: ______________________________________

   2. Reason for admission:__________________________________________________________

   Number of nights in hospital for admission 2: ______________________________________

   3. Reason for admission:__________________________________________________________

   Number of nights in hospital for admission 3: ______________________________________

   4. Reason for admission:__________________________________________________________

   Number of nights in hospital for admission 4: ______________________________________

Biological Sub-studies

Please document the patient's consent to the biological sub-studies and send to the Trial Centre following consent. Re-send the fully completed form after the shipment(s) are done.

1. Has the patient been offered participation in the two optional Biological Sub-studies?
   - [ ] Yes
   - [ ] No
   If no, please document the reason and do not complete the remainder of this form.
   Reason: ___________________________________________________

2. If yes, has the patient consented to either or both of the sub-
   - [ ] Yes
   - [ ] No
   If no, do not complete the remainder of this form.

If the patient has consented to either or both sub-studies, please indicate the scope of consent below:

3. RAVES Genetic Study (saliva collection plus questionnaire)
   - [ ] Yes
   - [ ] No
   If no, go to question 4.

   Date of consent (dd/mm/yy):
   [ ]

   Has the saliva sample been collected?
   - [ ] Yes
   - [ ] No

   Saliva sample shipment date (dd/mm/yy):
   [ ]

   Has the patient completed the RAVES Genetic Study questionnaire?
   - [ ] Yes
   - [ ] No
   If yes, please attach completed questionnaire.
   If no, please document reason: ___________________________________________________

4. RAVES Tissue Banking Study (tumour block)
   - [ ] Yes
   - [ ] No

   Date of consent (dd/mm/yy):
   [ ]

   Tumour block shipment date (dd/mm/yy):
   [ ]

Please contact the Trial Centre for additional details regarding sample collection, processing, storage, and submission.
